# Prepare for the future at Fleet Live 2018

At times of dramatic industry change, the spotlight is now on fleets and how they will effectively equip themselves for the future.

If your business wants to get up to speed with the latest innovations, cut costs, improve green credentials, reduce risk, better manage drivers, buy or lease vehicles more effectively, Fleet Live is the only place to find all the answers.

I look forward to seeing you in October to discover the changing face of fleet together.

**Stephen Briers**  
Editor-in-chief  
FleetNews

The Future Zone, featuring three unique hubs, will showcase the latest technological advances set to change the face of fleet and how you can adopt them.

## THE MOBILITY ZONE

Showcasing new mobility services like carpooling and ride railing and how to shift from 'Total Cost of Ownership' to 'Total Cost of Mobility'.

## TECHNOLOGY HUB

Dedicated to organisations seeking to adopt new technologies around connectivity, safety, data and security.

## ZERO EMISSION HUB

As major UK cities move towards zero-emission travel and fundamentally change the way fleets operate, discover the options available to meet Clean Air Zones.

The Advice Centre is a dedicated zone for employees in every area of fleet management to secure free advice and find solutions to pressing issues from some of the UK's most knowledgeable fleet managers.

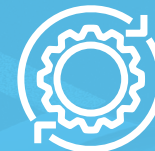

Gain a wealth of industry expertise from our Advisory Board members, who are responsible for running fleets of 100 to 10,000+ vehicles, including household name enterprises such as Royal Mail, Anglian Water, Red Bull and John Lewis.

## Extract the maximum value for Fleet Managers

### STRATEGY THEATRE

The daily demands of running a fleet can leave little time for long term strategies. Sessions in this theatre will give progressive fleet managers a head start in planning for the future.

### OPERATIONS THEATRE

Pick up practical and actionable advice on how to run and buy a more efficient fleet in presentations, seminars and workshops focused on the fleet challenges of today.

## Hear from the experts, including:

**Nick Denton**  
Traffic Commissioner,  
West Midlands

#### I'm speaking on:

New traffic regulations, licensing issues and my recommendations for commercial vehicle operators.

**Piia Karjalainen**  
Senior Manager for MaaS  
Alliance, ERTICO – ITS Europe

#### I'm speaking on:

Transport strategies around mobility as a service (MaaS) and its potential of providing more sustainable travel alternatives.

**Gareth Llewellyn**  
Chief Executive, Driver and Vehicle  
Standards Agency (DVSA)

#### I'm speaking on:

The benefits from the new DVSA Earned Recognition programme and what safety features will be necessary to drive trucks in major cities.

**Christophe Domke**  
Director - Mobility 2030,  
KPMG

#### I'm speaking on:

The challenges and opportunities of a connected future, how smart cities will shape fleet operations and how to prepare.

# Assess potential new partners at Fleet Live

With unlimited access to exhibitors representing every area of the industry, including **major motor manufacturers, leading leasing companies, specialist IT organisations and key fleet suppliers**, you can expect far more depth than a brochure and friendly chit-chat on a stand.

## Exhibitors include:

**ARVAL**  
BNP PARIBAS GROUP

**F** **FLEET OPERATIONS**  
consult > manage > deliver

**NEXUS**  
Vehicle Rental
